“If You’ve Been Arrested For a DUI/DWI Charge...Don’t Do Anything Until You Read My Special Report!”

Dear Friend,

If you or someone you know has been stopped by the police for a DUI/DWI offense, you’re probably confused about what steps to take. You may have questions like:

- Will I lose my driving privileges?
- Is there really a way to fight a DUI charge?
- Will I have to go to fail for a DUI?
- Will my insurance premiums go up?
- What happens if I don’t show up in court?
- Do I really need a lawyer or can I just show up in court on my own?
- How will I know that the lawyer I’ve chosen to defend me is the right lawyer for my DUI defense?

If you or someone you care about has any of these concerns, then please keep reading this Special Report. Hello, my name is Attorney Joe Mitchell; I have been helping clients as a lawyer in the Greater Philadelphia area for more than 15 years.

I’ve focused a significant part of my practice on the challenges faced by clients who end up with driving charges that could possibly land them in jail or permanent suspension of their driving privileges. It’s unfortunate, but many people these days end up with a DUI conviction on their permanent driving record when they didn’t have to.

Did you know that not everyone who is pulled over for a DUI is convicted of that crime? In fact, there are at least 30 ways to rebut the evidence from a breathalyzer machine. Inside this Special Report I’m going to outline some of these key points.

Unfortunately, I see way too many people misinformed about Municipal Court and their legal rights as a motorist when faced with a DUI charge.

That's why I've taken the time to write this Special Report and offer it for FREE to anyone who asks for it. Did you know there are key secrets to protecting your legal rights and driving privileges?

These days, doing nothing at all is one of the worst things you can do! As auto insurance premiums continue to rise, you really don't need your insurance company to raise your rates because of a DUI charge. Or even worse, dropping your coverage altogether because of a DUI that you might not have been guilty of. The truth of the matter is that there are 4 myths about defending a DUI case that everyone should know about but don't!

These days, you'd better get the "right" information before you do anything.

It's hard enough to make ends meet these days and adding the loss of your driving privilege to the mix can really make matters worse for you and your livelihood. If you or someone you know has been charged with a DUI, there are some very sobering facts that local law enforcement may not want you to know.

NO MIRACLES...JUST HARD WORK!

Now, I have not worked any special miracles on behalf of my clients. I just do my job as a lawyer. I do the hard work I am supposed to do that is necessary to help my clients. I investigate their cases, hire necessary expert witnesses, do the legal research, examine the records and document and verify my client's side of the story. I know the law, follow the proper procedures and hold my ground for my clients.

With more than 10 years of experience in criminal law, and an Ivy League education, I am able to quickly analyze my client's situation, recommend the best course of action and obtain a just and fair outcome.

The tragedy in all of this is that there are many people out who never got a chance to fully understand their legal rights. Every year, hundreds of thousands of people get unfairly charged for driving under the influence without fully understanding the legal process.

That's why I've dedicated myself to fully informing and educating my clients as to what steps are necessary to protect their legal rights.

**The Fact: There's A Lot More On The Line When It Comes To A DUI Charge Than
You Think!!!**

**NOTICE: BY LAW I MUST INFORM YOU THAT:
PAST RESULTS ACHIEVED ARE NOT A GUARANTEE OF FUTURE RESULTS. EACH CASE IS UNIQUE AND REFERENCE
MUST BE MADE TO THE SPECIFIC LEGAL AND FACTUAL CIRCUMSTANCES PRESENTED.**

**WHAT YOU NEED TO KNOW BEFORE YOU EVER GO TO COURT FOR A
DUI CHARGE!**

**MYTH #1: MOST PEOPLE ACCUSED OF A DUI/DWI CRIME ARE GOING
TO BE FOUND GUILTY!**

This myth is probably one of the most troubling ones of all – harbored by the public and lawyer alike. In my opinion, lawyers who believe they should never represent a client who's been accused of a DUI charge causes them harm by eliminating objectivity to the client's case.

In the cases where the chemical test used by law enforcement is a breath analysis machine and not a blood test, this type of evidence can be attacked by a skillful defense attorney.

Fortunately for us, most prosecutors have no idea how inadequate some breath machines are at gathering hard evidence. Prosecutors assume that since the state has approved these machines, its accuracy and reliability are not subject to be challenged in a court of law.

Did you know that there are at least 30 ways to rebut the evidence presented from these unsophisticated machines if the attorney understands how these machines work? Most importantly what causes these machines to malfunction, and that they are nonspecific for alcohol.

The most important fact to understand is how these machines work and how to effectively cross-examine the state's chief witness (the operator) of this device on the alleged "accuracy" of the machine.

How about the classic roadside sobriety tests? What I call the "opinion" gathering evidence done at local DUI checkpoints. Recent studies have shown that these field tests are assumed to be valid. However, most officers who administer these tests either require the wrong test or improperly instruct the suspect on how to perform them.

Being skilled at obtaining the right data could help me position a pre-trial ruling that these tests and the alleged indications must be excluded from the evidence due to lack of scientific foundation.

I leave NO stone unturned! The bottom line here is that these cases require a detailed scientific investigation, similar to a complex murder scene that involves DNA evidence or ballistics tests.

MYTH #2: IT'S IMPOSSIBLE TO WIN A DUI CASE!

Not only does the general public believe this to be true, but so do prosecutors. This myth is the biggest misconception regarding DUI. In fact, the good news is that experienced DUI defense attorneys "win" most of the first time offender cases when there is not evidence of a car accident or bad driving involved.

When I say "win" a DUI case I mean having the charges reduced to a lesser charge, different offense, or otherwise obtaining a plea that avoids a conviction. The most important thing to remember here is you don't want to lose your driving privileges for a year or two and land in jail.

MYTH #3: ANYONE CAN DEFEND SOMEONE AGAINST A DUI CHARGE.

If a close friend needed a lawyer for a specialized field of law like IRS litigation, I would tell them to call the local state bar and consult with a lawyer who has worked with the IRS. I would look for the most skilled attorney who is focused in this field.

So the most important thing to remember when choosing a lawyer is to choose one who will aggressively defend your interests. By not investigating all your options fully you could leave yourself at the mercy of the prosecutor or the judge. Again, if you had to go against the government you'd want the most aggressive skillful lawyer going up to bat for you.

Just to drive the point home, if you remember back to the "Trial of The Century." In my opinion the only reason why O.J. Simpson didn't go to jail for life was because he retained the best experts and lawyers he could find. Not only I, but thousands of people across the country believe that to be true.

MYTH #4: DRUNK DRIVING IS A MINOR CRIME.

Maybe 20 to 30 years ago DUI charges were minor offenses. Many veteran attorneys remember the days when drunk driving charges carried a slap on the wrist, and fines of \$50 to \$150, with no loss of driving privileges. In fact, it was a simple walk down to the court house, paying a small fine and letting the judge reprimand you for half an hour. However, those days are long gone!

Now with stricter DUI laws you need a lawyer who will represent your interests to the fullest extent of the law. A drunk driving charge could cost you your ability to drive, and not to mention land you behind bars. The answer is, drunk driving charges are very serious charges and you shouldn't take them lightly.

WHERE DO WE GO FROM HERE?
